<p>Case Adoption: NXIVM members report ongoing Aggravated Harrassment, Stalking and Unauthorized Use of a Computer, Town of Halfmoon, Saratoga County. This material was subsequently posted on the blog site operated by TIGHE named "saratogaindecline.blogspot.com".</p> <p>It is the knowledge of this investigator, that JOHN TIGHE has the aforementioned blog site and continually post materials surrounding Saratoga Springs politics and matters surrounding NXIVM/ESP (Executive Success Programs).</p>

I met with Attorney Mike McDermott, O&A, regards to Computer Trespass complaint by CLARE BRONFMAN. McDermott provided an email purportedly provided by OHARA'S previous employer, LESTER MARSHALL. Written authorization was provided to O&A for the release of this information to NYSP by MARSHALL. Email is allegedly between NATALIE to OHARA bearing an attachment of the NXIVM members. The date of the email is 05/05/11. A review by NXIVM personnel located the highest number enrollee on the list is 10345. (page 62). This student enrolled on 03/15/11. This would be an indication that the list was stolen on 03/15/11 because the next student #10346 enrolled on 03/16/11. A check by NXIVM personnel located MARY JANE PINO'S login and password was used on 03/15/11 by a person with the IP address of 74.47.145.18 (Rochester).

Same date, McDermott provides the IP addresses for login's using Mary Jane Pino user name and password. Specifically the login for 09/10/10 at 16:35:31 from IP address 69.2.120.11. This IP address is associated with Advance Publications. Advance Publication is the publishing firm for Vanity Fair. It is the knowledge of this office and of NXIVM personnel that Vanity Fair published a story on NXIVM in November 2010.

I completed a search for MARY JANE PINO using Spokeo which located her at 175 Thacher St, Apt 102, Milton, MA 02186, (617)698-2977. An attempt to contact same at this number met with negative results. No answer.

I received an email from Atty MCDERMOTT who provided contact information for MARK VICENTE (310-339-5414). VICENTE is reportedly the subject who provided video of TIGHE'S vehicle on 03/13/12.		
I attempted to contact VICENTE with negative results. A message was left.		
I reviewed SJS reports where KEEFFE, SALZMAN, BRONFMAN, RANIERE or CAFRITZ have reported harassment or similar issues with TIGHE.		
I sent a request to the Saratoga County Sheriff's Dept for records reflecting complaints from the aforementioned persons against TIGHE.

Narrative		
I interviewed MARK VICENTE at SP Clifton Park in the BCI interview room. VICENTE provided four video files from a thumb drive that he had in his possession. VICENTE advised that three video files were filmed using his equipment that he films movie with and they depict an interaction with TIGHE and responding patrols to Fred the Butcher. The fourth video file is a video of TIGHE on 03/13/12 when VICENTE used his iPhone to video TIGHE passing by the area of 1-3 Flintlock Lane. TIGHE reportedly had driven past on seven occasions and on the last occasion, VICENTE documented it with a video file. Copies of the files were provided to NYSP and reduced to a CD-R. VICENTE advised that TIGHE has never directly threatened him but has caused VICENTE to alter his activities.		
VICENTE to review the meta-data from his original footage to determine the time and date.		
I reviewed the footage provided by VICENTE. The video from Flintlock Lane is the same footage provided through Atty. NICHOLS where TIGHE'S car is observed on Independence Blvd. The footage of the incident at Fred the Butcher depicts TIGHE parked at the "Bull" and him speaking with SCSO and NYSP personnel. CD-R placed in the case file of this incident as it holds no		

evidentiary value.

I received documentation from SCSO Records indicating contact with KEEFFE, BRONFMAN, and NEVARES regarding suspicious activity (TIGHE).

1. 03/19/11 at 17:16 by NEVARES reporting activity at Apropos (believed to be the subpoena service where TIGHE, M entered Apropos and a previous attempt to serve papers at 3 Oregon Trail.)
2. 03/19/11 at 18:10 by KEEFFE reporting TIGHE was in her neighborhood. No threats made.
3. 12/23/11 at 16:23 by KEEFFE reporting TIGHE outside her house filming
4. 12/24/11 at 10:54 by KEEFFE reporting being stalked by TIGHE for about a year and fears that it is escalating (referred back to NYSP)
5. 03/13/12 at 13:14 by KEEFFE reporting TIGHE was in the area of her residence. No contact made by TIGHE.

DA Inv Bill Thobae advised that the response from Time Warner on the IP addresses has returned as follows:

67.248.93.29 - No subscriber information is available as the date and time requested is past our retention period.

24.97.168.75 - Village Hall LLC (a known association with NXIVM) *Unknown why this IP is appearing on the log as using PINO'S login information.

It should be noted that both of the above IP addresses were used on 09/04/11 at 8:00 PM and 11:00 PM. Possibly both IP addresses are associated to IT completing a track of log ins using PINO'S username and password.

On 07/24/12, I received an email from Atty MCDERMOTT who provided an Excell spreadsheet on IP addresses associated to the log ins using PINO'S information. It should be noted that this list is different from one previously supplied by IT personnel. Specifically excludes all three of the IP addresses used to request subpoenas from the DA Office. An email reply was sent to MCDERMOTT for an explanation.

This was an attempt only and determined to have not gained access therefore it was removed from the list.

I received a call from Atty Coffey. Arrangement made for an interview of KEEFFE at 1:00 PM on 08/09/12.

I attempted to contact PINO at (617)698-2977 - the number is disconnected. Attempts to locate additional contact information for PINO met with negative results. Spokeo resulted with an email address of : jhopsonpino@earthlink.net. An email was sent on today's date.

I conducted a check using an internet, advanced search for MARY JANE PINO, Milton, MA and located additional contact information for PINO. I contacted PINO on her cellular phone at (617) 549-9522. PINO advised that she attended classes with NXIVM/ ESP in 2001- to 2002. It was at this time that NXIVM was attempting to purchase property in Clifton Park that attracted media attention. PINO advised NXIVM/ESP to no longer contact her for future training and regrets taking the classes. PINO recalls BOUCHEY but does not recall any personal interaction with her. She was also aware of NATALIE and OHARA but not of TIGHE. PINO does not recall the user name or password. She was sponsored by PETER FALLON and one of her coaches was LORETTA GARZA.

Narrative

I received a phone call from KEEFFE. She advised that on today's date at approximately 10:00 AM she was outside of her residence speaking with a person walking their dog. The subject was observed taking pictures of her. KEEFFE advised BRONFMAN of the incident, who advised to contact this office. BRONFMAN stated that she had driven by the residence earlier with CAFRITZ and they both observed the male subject standing inside the door, looking out. She turned and noticed that her neighbor at 4 Flintlock Lane was standing inside the storm door of the residence and holding a camera. At one point, KEEFFE observed the camera lens poking out between the door and the door frame. It is unknown if the subject was taking picture of KEEFFE.

I conducted a check Saratoga County Property Search (internet search) and located that 4 Flintlock Lane is currently owned by RICHARD A. FUGARO and his wife, LORELEI FUGARO.

I spoke to BENJAMIN MYERS, IT who provided details of the software and IP capture system associated to the server used by NXIVM/ESP. MYERS stated that the Apache Server, in itself, has an internal software package that collects IP addresses, date and time and page load. . There is a custom software script that he and OSE wrote to capture each individual attempt to log on to the system, including the user name and password that was used to log into the system. MYERS took the information collected from the custom script and compared it to the information collected by the Apache Server which is how they were able to discover that PINO'S user name and password were used to access the NXIVM/ ESP site.

I received a call from ALEX FINN d.b.a Stockade Associates, 22 North College ST, Schenectady, NY who advises that he has provided IT services for Atty. Nichols. She advised FINN that there had been a security breach, internal access to a server and requested assistance in the recovery of emails, their headers, and to compare the IP addresses of the emails to IP addresses captured from the unauthorized access to the company sever. FINN provides that he has only gained access to the server on one occasion, on April 26, 2013. FINN reports that he was able to corrolate IP address to the IP logs on the breached system. He continued in stating that the email server located at Accelify is off line. He further stated that approximately 2-3 years ago, the server was placed offline because the company went to a different email service Office 365 and the emails were backed up to MacAffee "cloud" service. He advised that the back up service for the emails is retained by a third party, it backs up automiatically and cannot be tampered with. FINN believes that this service would provide the most accurate depiction of the emails because in some cases some emails could have been erased whether they were incoming and outgoing.

FINN was given access to the server under the supervision of ACCELIFY IT personnel and then provided access to the back up service. FINN has information on the server including photographs.

I re-interviewed GOLDENBERG who advised the server is a stand alone computer tower type server. He advised the server is a Dell server. GOLDENBERG requested communication through his attorney, Ronald Kleinberg, (212) 689-8600.

SEARCH WARRANTS

On today's date, NYSP executed search warrants at 24 Ingersoll Ave, C/Schenectady; 496 Rowland Street, Bldg 6, Apt 4, Milton, NY; and 13 Santa Circle, Pittsford, NY.

Evidence was located at all locations.

TIGHE- I attended the search of TIGHE'S residence in the T/Milton. TIGHE was cooperative and responsive to questions where computers, his office and other devices were located. TIGHE denied knowledge of MARY JANE PINO, her user name and password and the access to the NXIVM computer system. TIGHE advised that the computer in the basement is the device that he uses on a daily basis to access his files, internet sites and maintain his blog. TIGHE specifically stated "All of the computer stuff is mine, my wife doesn't know anything about computer stuff. She has no knowledge of what is on there, I gave her the small lap top upstairs for her to look at stuff on". TIGHE questioned if he could get in trouble for other stuff on the computer not just the NXIVM stuff. TIGHE'S residence was occupied by his wife JOYCE TIGHE and TIGHE, JOHN. *It should be noted that for officer safety, TIGHE, J was in possession of multiple rifles, shotguns (varying in age and caliber) and pistols. Most items were located in a loaded condition, specifically the semi-automatic rifle 7.62 caliber and the 12 gauge pump action shotgun located adjacent to the bedroom door of the master bedroom. Pistols located were identified earlier as those listed on his pistol permit in Saratoga County.

Photographs were completed of the residence before, during and after the search warrant was conducted. A copy of the photograph record is attached to this report as an enclosure herein.

A property receipt was completed and a copy was provided to TIGHE, J prior to leaving the residence. A copy is attached to this

report as an enclosure herein.

O'HARA- O'HARA's residence was searched by members of SP Clifton Park and CCU. At the residence, members identified JULIA BOUSE and JOSEPH O'HARA as the occupants. Both subjects were cooperative and offered no resistance to the search warrant.

Photographs of the search warrant were completed before, during and after the search warrant. A photograph record was completed and a copy is attached to this report as an enclosure herein.

A property receipt was completed and a copy was provided to O'HARA prior to leaving the residence. A copy of the receipt is attached to this report as an enclosure herein.

I was contacted by TONI NATALIE (FOLEY) who asked questions about the allegations and investigation. NATALIE admitted to knowing PINO. She stated that she does not remember if she ever met her, but she did know who she was. She further stated that while she was involved in the "GAELYN" investigation, she was seeking information from all sources. NATALIE stated that web site is an open source of information for the public to access. Later in the conversation, I questioned if she ever used the user name and password of MARY JANE PINO which she admitted that she had in fact, that it was part of her "due diligence" while seeking information about GAELYN. NATALIE provided more unsupported information regarding allegations of crimes committed by RANIERE. NATALIE believes that this search warrant was as a result of a letter that was sent to TIGHE, O'HARA, NATLAIE and O'DATO from a woman possibly in Mexico. This woman wants to provide information about RANIERE preying on children in Mexico. A 710.30 Notice was completed and a copy is attached to this report as an enclosure herein.

Received notification from Attorney Terrence Kindlon advising of his representation of TIGHE.

Narrative

On 01/13/14, I received two emails from Atty Nichols who requested contact with her office over another computer trespass occurring with the NXIVM website/server.

I was contacted by Atty Coffey who provided the condensed version of events reported to him by BRONFMAN, C.

I contacted MYERS, B who provided that on 01/08/14 at 2:02 AM (-0500), an unknown party accessed the NXIVM website/server from 24.39.203.50. This IP address has been flagged by NXIVM as an IP address previously used by unknown parties to gain access with the PINO username and password. On 01/07/14 the unknown party used the username and password of SVETLANA KOTLIN. MYERS, B advised that KOTLIN was a previous student who was provided a username and password, but she has not used her access in recent history. MYERS was not able to provide KOTLIN'S last known authorized access but he would research this information. MYERS advised that the IP address is associated to BOUCHEY as it was attached to an email header which NXIVM had received from BOUCHEY. MYERS provided the email header from BOUCHEY, access log for 01/07/14, and the page access log/ page loads for KOTLIN username.

I conducted a check of www.dawhois.com for the IP address which located the IP address is a direct allocation through Time Warner Cable to Barbara Bouchey Asset Management@19 Kempton Pl, Saratoga Springs, NY 12866. Phone number associated to the account is 518-348-1001, contact ipaddreg@rr.com. Contact address of 131 Elm St., Saratoga Springs, NY 12866.

A check of the previous report entries indicate attempted access to NXIVM website/ server between 08/02/09 and 07/07/10. A review of the page load data spreadsheet failed to locate access to the website. Multiple attempts met with no authorized access to the website/ server.

A review of the pageload data provided by MYERS reveals the following:

- 01/08/14 at 2:02:47 (-0500) unknown subject gained access to "index2.php"
- 01/08/14 at 2:05:24 (-0500) unknown subject gained access to "comm/calendar/1index.phpHTTP/1.1"

 01/08/14 at 2:14:01 (-0500) unknown subject gained access to "comm/calender/1upcoming_trainings.php HTTP/1.1"

TLOpx reports indicate SVETLANA KOTLIN has a current address of 1510 Central Avenue, Suite 250, V/Colonie, NY (possible business address). BOUCHEY has a current address of 19 Kempton Place, Apt 8, Saratoga Springs, NY 12866. She had a previous address at 16 Silo Dr, Waterford, NY.

Email received from MYERS on 01/15/14 advising that the disc containing the information of the logins would be available on 01/15/14. Disc was received by Tpr Keating and placed into the BCI evidence locker.

I was advised by Inv Vandusen that the evidence processing is continuing. Items of evidence would be available next week. Possible problems exists with the item of evidence regarding TIGHE with the AUSA. Item may be returning to NYSP.

I advised Inv Vandusen of the new access by KOTLIN at the suspected IP address. Vandusen conducted a search of the NXIVM logs and located successful access with the PINO username and password from 24.39.203.50 on 11/01/09. Access was gained for approximately 30 seconds. It is unclear if anything was gained through this access. Inv Vandusen further advised that additional attempts were noted on 07/06/10 for the same IP address with no access was gained. According to the current records obtained from the NXIVM server, KOTLIN has 26 entries with 11 successful logins to the server/ website. Inv Vandusen advised to have MYERS make a copy of the NXIVM log file and Apache web server file, this will be sufficient for evidentiary purposes for NYSP.

I received a call from Atty Coffey who advised of pursuing extortion case with Atty Lennard with possible prosecution of suspected persons through Albany County.

I contacted FBI, SA David Fallon regarding Federal Prosecution of TIGHE. Same advised that he has identified 50 images as child pornography, the videos received have problematic issues for prosecution since most of the videos are preceded by a banner indicating the models were 18 years of age. SA Fallon advised that federal charges would remain pending the complete review of the materials obtained from TIGHE'S residence.

I received a call from Inv Vandusen. Investigation is continuing. Same advised of material located on one of the thirty two compact discs obtained from O'Hara's residence. Materials area related to NXIVM bankruptcy materials and unrelated to the current investigation.

On 01/24/14, I received a voicemail from Atty Coffey, who advised of suspicious activity reported by BRONFMAN. I called Atty Coffey who provided details of two suspicious packages received via USPS to KEITH RANIERE. Same advised to have BRONFMAN bring the packages to SP Clifton Park for a report of the activity. I received a telephone call from Atty Nichols in regards to the same activity. Same was advised to have BRONFMAN drop the packages off at the barracks for a review of the materials for possible criminal activity.

A review of the packages reveals the following: both packages consist of a medium size, padded envelope bearing Keith Raniere's name and the address for NXIVM headquarters at 455 New Karner Rd, Albany, NY (T/Colonie). One envelope is dated Dec 20, 2013, from zip code 21042 and contains three Visa gift card (\$100.00 denominations). The back of the envelope bears the address of 562 Woodmont Ave, Berkeley (misspelled), CA 94708. The second envelope is dated Jan 7, 2014 from Columbia, MD and contains a receipt from an Endicott, MD Rite Aid for the purchase of a \$500.00 Visa gift card and the gift card.

A check of the Berkeley, CA address reveals it returns to a MIRIAM ABRAMS (tloxp search). A Google search reveals that ABRAMS, M is a therapist who is involved in some type of counseling services similar or the same as NXIVM/ESP.

A check of NXIVM records located through this investigation a KATHLEEN ABRAMS who is listed as a member in the email from O'HARA to NATALIE. A check of Spokeo records indicates several addresses for a KATHLEEN ABRAMS (70 years of age) from Columbia, MD who is also a therapist.

Since it is not clear of a criminal act occurring in this matter, no further investigative acts are to occur until clarity is provided by the complainant or reporting persons in this matter.

Attorney Nichols advised. Attorney Nichols advised that BRONFMAN, C is not in the area for several days and she would advise BRONFMAN, C.

NATALIE contacted this office and requested assistance in locating files on her seized MacBook Pro computer that she requires for the filing of her taxes.

Narrative
 Communication continues with NATALIE regards to obtaining copies of files from her seized MacBook Pro for the purpose of completing her federal taxes.

I received notification from Inv Vandusen who advised that the evidence disc containing the analysis report for Item #2, the data from the NXIVM server. I patrolled to NYSP FIC where I obtained item #2L from receiving at NYSP FIC. The disc was reviewed by Inv Vandusen and me prior to leaving the building. Item returned to SP Clifton Park where it is secured in the BCI Evidence Locker.

A review of the report verifies previous log files provided by NXIVM/ESP which depicts the illegal access by several parties including O'Hara, Natalie and Tighe. Several additional locations were verified including DONES, ANDREWS, CROAK and BOUCHEY. Log files for several of the transactions fail to depict the actual log in but depict access from the IP address to areas of the server which have been depicted as "sensitive files". i.e. BOUCHEY'S IP address depicts no access through the log in, but the Apache server file indicates access from a person associated to BOUCHEY'S IP address. A majority of the data indicates web pages were requested but no authorization was granted. Access to areas of the server was granted but areas may be public areas of the server/website.

Narrative
 I completed surveillance of TIGHE'S residence with negative sightings of TIGHE or his vehicle. Residence appears to remain occupied.

A check of DMV files indicate TIGHE'S vehicle and license remain valid and associated to the Rowland St address.

I completed a check of 19 Kempton Pl, Apt 8, Saratoga Springs (BOUCHEY residence). Located residence and but failed to locate BOUCHEY or vehicles associated to BOUCHEY. Residence is located within a duplex, multi-unit dwelling bearing yellow siding and the number 19 identifying the building number located in the middle of the building in black letters on a white background. I was unable to locate apartment #8 but located the garage to the unit on the west side of the building bearing a #8 over the garage door in black on white background.

I conducted a check of 131 Elm St, Saratoga Springs which is the residence associated to the IP address management, CHRISTINE TRAVER. Negative results on TRAVER or vehicle associated to TRAVER. The residence is located at the corner of West Circular and Elm St. The residence is located at the southeast corner of the building which appears to be a multi-unit dwelling. Number to the residence is located on the porch post. No vehicles observed at the residence.

A check of DMV files for BOUCHEY, TRAVER and KOTLIN was completed. KOTLIN has an address associated to her registration of a vehicle locate at 288 Thimbleberry Rd, Malta, NY.

I contacted Attorney Nichols and made an inquiry for persons knowledgeable of TRAVER, KOTLIN and BOUCHEY within the NXIVM organization and their personal contact with each other. Atty Nichols advised that TRAVER was working for BOUCHEY and observed at her apartment by a process server when BOUCHEY was served by her office.

I also conducted a check of SJS where I located TRAVER. TRAVER was previously interviewed on 01/19/11 during the investigation involving GAYLEN KEEFFE. (SJS # 3794359). In the interview, TRAVER advised that she had previously worked for BOUCHEY prior to the interview.

A check of internet search engines, BING and GOOGLE locate an interview of KOTLIN by the Times Union. Article is regarding KOTLIN and a civil dispute between herself and Quick Response for work she apparently requested for her ex-husband's residence in Halfmoon. *A check of TLOxp located a previous address at 35 New Netharland Way, Halfmoon, NY.

A review of case notes indicates that both PINO and KOTLIN were sponsored by PETER FALLON. Interview noted for later purposes.

A review of case paperwork locates PETER S. FALLON as a member, per date of the printed member list. Attempt to locate PETER S FALLON in SJS fails to locate the proper individual.

Narrative

On 03/25/14, I patrolled to 8 Kempton Pl, Saratoga Springs, NY where I attempted to locate and interview BOUCHEY with negative results. I located and interviewed the property manager who advised that BOUCHEY had moved out in the end of January 2014. She recalls that she moved to Seattle, WA. Contact information was provided.

Same date, I contacted BOUCHEY by telephone. BOUCHEY was familiar with myself as we had previously spoke in regards to KEEFFE, G in 2010. BOUCHEY provided details of her telephone contact with KEEFFE, K on 02/12/14. No relevant information regarding this investigation except that KEEFFE, K apologized for the relentless pursuit of BOUCHEY through litigation and other harassment techniques. BOUCHEY was questioned in regards to the activity where an unknown party logged into NXIAN.net on 01/08/14. BOUCHEY disclosed that when she worked for NXIVM she received request from people for access to the website which stated was nothing more than a glorified "Facebook" for NXIVM that did not contain any proprietary information. BOUCHEY continued in stating that in January she was going through a bunch of emails, one of which was from/ to KOTLIN. It was at this time she located the username and password for KOTLIN. BOUCHEY stated that she was curious if they still worked so she logged into NXIAN.Net using the username and password of KOTLIN. She acknowledged that she did not have the authorization from KOTLIN to do so. BOUCHEY confirmed the areas of the website that she looked at including the Humanities,

the calender and coach list. BOUCHEY advised that she had no intentions of sharing the information but was curious in NXIVM and their current status of business. BOUCHEY stated that NXIVM has a habit of taking small infractions and making them much larger than what they really are. She provided examples in her many lawsuits involving NXIVM or the BRONFMANS. BOUCHEY stated that when she was with NXIVM as their primary financial planner, she was aware that the organization had two servers. Neither were connected to each other. One server contained Nxian.net and the other server contained the data which she had knowledge was proprietary such as accounting records, payments from clients including credit card information, NXIVM/ESP class information, commissions, payouts, etc... BOUCHEY was familiar with PINO. She recalled that PINO had been passing her username and password to several people, but she was not familiar with whom she had shared it with. BOUCHEY stated that she recalls PINO had access to the second server, as she recalled PINO had worked in the administrative offices at 155 New Karner Rd. *PINO and NXIVM personnel did not confirm this information. PINO indicated that she took a calls with ESP but did not provide details that she worked for NXIVM. Conversation was recorded.

On 03/27/14, the meeting with Trexler was cancelled.

On 03/31/14, Atty Coffey at station inquiring about status of this investigation. Atty Coffey also inquired about criminal investigation involving RANIERE or NXIVM as a result of KEEFFE interview. Atty Coffey does not know the current whereabouts of KEEFFE.

Same date, I received a call from NATALIE who was requesting a status update on the case and access to pictures of her house so that she could provide them for the sale of her house. NATALIE stated that she believes that she did nothing wrong and insist that her computers should be returned to her. I advised NATALIE of her previous conversations with this office and her admissions to accessing NXIVM'S servers using PINO username and password. NATALIE again confirmed the use of the information but stated that all she wanted to do was to expose a criminal organization and not sue the information for any other purpose. NATALIE further stated that she received the username and password form PINO but did not recall how she received i.e telephone or email. Conversation recorded.
