Keith Ranieri Executive Success Programs NXIVM

Keith Ranieri

Executive Success Programs - Keith Ranieri, co-founder of Executive Success Programs, Inc. (ESP), is a scientist, mathematician, philosopher, and entrepreneur. An unusually gifted individual, Mr. Ranieri's unique abilities were evident at a very early age. Among them:

- He spoke in full sentences by the age of one and was reading by the age of two
- At the age of eleven, he was an Eastern Coast Judo Champion.
- At age 12, he taught himself high school mathematics in less than a day and taught himself three years of college mathematics by age 13.
- He plays many musical instruments and taught himself to play piano at a concert level by age 12
- He was entered in the Guinness Book of World Records for "Highest IQ" in 1989.
- He has been noted as one of top three problem-solvers in the world
- He was a millionaire by the age of 30 and worth \$50 million by the age of 32

Mr. Ranieri is perhaps best known as the creator of Rational Inquiry™ – the transformational model at the center of Executive Success Programs' trainings. Rational Inquiry™ is a science based on the belief that the more consistent an individual's beliefs and behavior patterns are, the more successful they will be in everything they do. The invention, which Mr. Ranieri laid the groundwork for as a teenager, is considered by many to be one of most dramatic developments in the field of human potential today.

But despite his extraordinary talents and accomplishments, what often strikes people most about Mr. Ranieri is how down to earth he is. He has the unique ability to relate to virtually anyone, and is known by his friends as a prankster extraordinaire.

NXIVM is a new ethical understanding that allows us to build an internal civilization and have it manifest in the external world. It allows us to explore our most fundamental nature and to begin to redirect our power of creation, a power that we all possess in a very human sense. It is a place where humanity can rise to its noble possibility.

Executive Success Programs has created international coaching standards that allow for accurate, consistent measurement of human psychodynamic performance. All ESP programs maintain standards of excellence and impart a unique, patent-pending technology called Rational Inquiry™, developed by Keith Ranieri, that enhances human performance in virtually every field of human endeavor.
